Cardiovascular Risk Assessment Day at Hackley Hospital *Event Kicks off Opening of the Lipid Management Clinic at Hackley Hospital*

Muskegon, MI – Hackley Hospital will host a free “Cardiovascular Risk Assessment Day” on Tuesday, September 30th from 8:00 a.m. – 1:00 p.m. at the Youngberg Auditorium at Hackley Hospital. The event is free of charge and the general public encouraged to attend

Services available will include blood pressure screenings, weight loss tips, Carotid Doppler demonstrations, cholesterol testing (\$10 fee), “Ask the Pharmacist,” physician referrals, and more.

The event marks the opening of Hackley Hospital’s Lipid Management Clinic which focuses on the prevention of cardiovascular disease, the county’s number one killer. The clinic, opening at Hackley Hospital in October, will feature a cardiologist, nurse practitioner, and nutritionist working with patients to develop an individualized treatment plan for lipid disorders. Lipids refer to specific fats in one’s blood which have a direct link to the risk of developing or aggravating heart attack, stroke or other vascular diseases.
